

## Editorial

Dear Reader,

welcome to this issue of *Parabola*!

It is with great pleasure that I present this issue to you. It features nine interesting articles by authors in nine countries. As always, there are ten new and beautifully crafted *Parabola* problems by expert problem setters, the *Parabola* Problem Editors David Angell, Sin Keong Tong and Mircea Voineagu. You can also enjoy the problems from the 61th UNSW School Mathematics Competition which was held earlier this year. The winners of that competition are also listed in this issue.

I would like to thank everyone who contributed to this issue: Co-Editor Arnaud Brothier, Problem Editors David Angell, Sin Keong Tong and Mircea Voineagu; Competition creator Denis Potapov, and article authors Jonathan Hoseana, Joshua Im, Unchone Lee, Hikaru Manabe, Daisuke Minematsu, Ryohei Miyadera, Aoi Murakami, Kelvin Muzundu, Kou Omori, Sizhe Pan, Naren Ramesh, Jeonghyeon Seo, Md Faiyaz Siddiquee, Martina Škorpilová, Iwan Sugiarto, Shoei Takahashi, Ricky Wijaya and Hoover Yin.

Please enjoy this issue of *Parabola*!

Warm regards, and wishing you a very happy 2024!,

Thomas Britz
